

IMCI Geospatial Modeling Working Group
Meeting Minutes
IRIC 352
November 20th, 2019

please provide any additional information that was missed, and we will add to the minutes

- Discussed having an EPSCOR track 2 brainstorm that is led by Dr. Marshall Ma - week after thanksgiving, - Dec. 3.
- Will schedule out a date to address GEM3 potential seed grant topics which may relate to geospatial research areas.
- Will send out a calendar of dates for future meetings. If anyone has additional meeting topics, please send out on slack.
- Will be formulating a list of accessible resources for geospatial areas:
 - ESRI software access
 - Github/geospatial code repo
 - Data sharing via NKN
- As mentioned in our previous meeting, IMCI is sponsoring several software/data carpentry workshops in Spring 2020. We have a GIT/shell scripting/python workshop (Jan 30-31), and a geospatial workshop in R (March 26-27). Workshops will be under BCB – and will be a 500 level 1 credit. IMCI is putting together a web page that outlines all workshops and their logistics/syllabi and will post on slack.
- Dr. Chao Ma – postdoctoral fellow under Dr. Marshall Ma – gave an interesting presentation on their research into spatiotemporal weighted regression modeling. We will provide Dr. Ma’s slides to the team.
- As a note, our working group has a zoom URL that participants can use for remote access. <https://uidaho.zoom.us/j/146242890>
