IMCI Geospatial Modeling Working Group
Meeting Minutes
IRIC 352
December 4th, 2019

please provide any additional information that was missed, and we will add to the minutes

- We discussed several topics that were centered around how we might schedule our GM team meeting over the next few months.
  - Confirm day.time – or change due to spring schedules? Do we need to meet every week, or change that up to once every two weeks?
  - Setting up a specific schedule at least two months in advance, so everyone has a sense of what we will talk about in advance.
  - For particular meetings that may have a technical presentation, one thought was to FLIP the meeting – where the presenter provides a condensed version of their talk in advance, and the team reviews in advance.
  - Beer! It was also suggested that we might have one meeting a month held at a local pub or food/beer establishment, to spur on creativity
- Meeting Ideas:
  - Epscor info talk. The group suggested to have someone from the Epscor program come talk to us for 20 min or so – in preparation of submitting a Epscor/GEM3 seed grant – due in mid February.
  - Seed grant brainstorm. To occur after the epscor talk.
  - Geospatial resources presentation. Bruce Godfrey to discuss UI resources, with assistance from others
  - Two (2) particularly focused brainstorm sessions on geospatial topics, that can weave into working group session (i.e. 30 min talk and 30 min work session that involves tech talk topic)
- Proposed schedule:
  - Dec 18: Epscor talk
  - Jan 8th: Seed Grant brainstorm
  - Jan 15th: Geospatial resources talk
  - Jan 23rd: Pub meetup/technical brainstorm on Seed grant et al.
  - Jan 30th. TBD.
- To dos:
  - Erich to send out doodle for spring schedule
  - Erich to solicit ideas on slack for technical topics
- As a note, our working group has a zoom URL that participants can use for remote access. https://uidaho.zoom.us/j/146242890
